

Analyst's Comments:

These samples were collected by yourselves and analysed as received at the laboratory.

Samples are held at the laboratory for one month (where appropriate) after reporting of results. After this date they are discarded unless otherwise advised by the submitter.

This report must not be reproduced, except in full, without the written consent of the signatory.

これらのサンプルは貴社により採集され、当社が受領したものを分析しました。サンプルのあまりがある場合、分析結果終了後1ヶ月間は当該サンプルは保管されます。特別の指示がない場合廃棄されます。この分析結果報告から一部だけを抜粋することを禁止します。当社の文書による同意がある場合はこの限りではありません。

Note: The detection limits have been raised proportionally to account for a dilution required during the analysis. Sample types that have been refined or concentrated necessitate a smaller sub-sample (5 grams compared to 20 grams used for fresh or raw samples) to be taken for the analysis. This ensures the amounts of interferences or co-extractives that may affect the analysis are kept to a minimum.
